INTRODUCTION

The Defries Industries team share a vision of high standards and a commitment to superior patient care.
We continually strive to create outstanding products that excel in design, ease of use, effectiveness and price.
Defries has built a strong national reputation since 1980 and continues to expand and develop our product range. We are proud to be a 100% Australian family owned medical business and aim for ongoing growth and investment in Australian and New Zealand healthcare into the future.

WE ARE COMMITTED TO IMPROVING PATIENT CARE WITH OUR QUALITY SINGLE-USE, STERILE MEDICAL PRODUCTS AND CUSTOMISED PROCEDURE PACKS

Our range of over 3000 different medical and surgical products are a combination of single sterile items and procedure packs. This catalogue features all our single sterile items and standard general packs. For customised procedure packs, please contact our Customer Service team for your local Representative's details.

AT DEFRIES WE COLLABORATE WITH INDUSTRY LEADING SUPPLIERS

We regularly meet with our primary suppliers to explore new technologies and products available, so that we can offer our customers quality products at competitive prices.
We visit our suppliers' facilities to check their Quality Management Systems and ensure the ongoing supply of components to Defries.

We are proud to distribute innovative products from Advancis Medical, DeRoyal Industries, OBP Medical, Degania Medical and NewGen Surgical. These medical companies are leaders in healthcare from around the world.

REGULATORY COMPLIANCE IS VITALLY IMPORTANT AT DEFRIES INDUSTRIES

Our quality management system, which is based on ISO13485:2016, is regularly assessed by the TGA to ensure ongoing compliance with this ISO standard and the relevant provisions of the Therapeutic Goods (Medical Devices) Regulations 2002.

The key role of our Quality Assurance is to deliver products that are superior in safety, quality and performance by achieving ongoing compliance with approved specifications and relevant industry standards.

SUSTAINABILITY AND ENVIRONMENTAL DECISIONS

We are committed to managing our resources actively and wisely to prevent pollution, minimise our environmental impact and reduce our carbon footprint. We regularly review how the design, manufacture and distribution of Defries products affects the environment. Our corporate sustainable strategy includes environmental values, impacts and commitments which include the following:

- Energy use and Carbon emissions
- Ethical company suppliers
- Waste management
- Water resources
- Transport and fuel emissions
- General and end user waste management

Our company is certified to the ISO14001 Environmental Management System.

CUSTOMISED PROCEDURE DRAPES

THE FLEXIBILITY OF CHOICE

At Defries we have a comprehensive range of patient drapes which cover all procedures in the operating room. We provide our customers with superior products that match their clinical needs.

Our drapes are made to specific requirements such as size, fabric, fenestrations and extra details like velcro taping and clear plastic anaesthetic screens.

CHOICE OF FABRIC IS IMPORTANT

At Defries we use a variety of drape fabrics:

Azure drapes use a viscose impervious fabric with a polyethylene laminate, suitable for general surgery with minimal fluid or short procedures. This range includes the Azure minor procedure drapes.

Sapphire drapes use a bi-laminate or tri-laminate fabric with extra reinforcement providing excellent barrier protection. This range includes back table covers, mayo covers, some procedure drapes and bespoke designed drapes to meet specific customer requirements.

Aqua drapes are our newest drape range available and use an innovative drape fabric that is a tri-laminate – a three layer drape which offers an absorbent top level, an impervious middle coating and a soft and comfortable patient layer. Soft and light, this material feels the closest to linen when draping the patient.

This high performance fabric is soft and drapeable with additional features such as reinforcement around the fenestration, fluid containment pouches, positioning tape and incise area. We have an excellent standard range of designs covering all procedures from general surgery and universal packs, to orthopaedics and specialised surgery such as neuro.

Supreme drapes are made from a tri-laminate fabric and are specifically designed for high level performance whilst being soft, drapeable and easy to use. These drapes provide great absorbency from fabric reinforcement around the fenestration, fluid containment pouches, positioning tape and incise area. The Supreme range includes drape sheets and specialty procedure drapes.

Our drape design includes the instructions for correct aseptic application with markings and directions on the drape to assist ease of use.

All drape fabrics are conformable to patients' shapes. They are low linting and have excellent barrier properties to prevent strike through of airborne and blood borne bacteria, meeting regulatory standards.

Please contact your Defries representative for further information.

IDENTILOOPS

These radio-opaque Identiloops are used in surgical procedures for retraction, identification or occlusion of arteries, veins, nerves or tendons. A soft and flexible, inert medical grade silicone which is oval in cross-section, allows for even pressure distribution to minimise damage to tissues. Available in 4 colours – Blue, White, Red and Yellow in mini and maxi sizes. All double packed.

SURGICAL RETRACTOR

ONETRAC™

ONETRAC™ is a single-use cordless surgical retractor with a built-in LED light source and smoke evacuation channel.

It provides illumination in the depths of a surgical tissue pocket or cavity. No additional parts or components or fibre optic cables are required. Ideal for breast or reconstructive procedures, as well as other surgical procedures requiring access, illumination and retraction of soft tissue. Reduce cost, increase efficiency and eliminate unnecessary risk of cross-contamination with ONETRAC.

WOUND DRAINAGE

Wound drains and evacuators provide drainage for various surgical procedures, allowing for the removal of blood and excess fluid to improve patient outcome. Our wound drainage systems are made up of evacuators, flat drains, fluted drains, round drains, capillary action drains and easy flow drains.

They are all made from 100% medical grade silicone, which is inert, soft and flexible and designed to reduce the potential of post – operative infections.

WOUND EVACUATOR BULB

Our wound evacuator is a clear bulb with easy to read graduations up to 100ml/cc, and is designed to slowly draw fluid and blood from the wound site. It creates an ideal vacuum to a maximum of 125mmHg pressure and is compatible with our flat drains, fluted drains and round drains.

31300380DS

CODE	DESCRIPTION	BOX QTY.
31300380DS	Evacuator Bulb 100ml/cc	10

PERFORATED FLAT WOUND DRAIN

Soft and comfortable silicone flat drains with multiple drainage holes to enhance the fluid removal in a wound. They have an ergonomic flat shape which enables an easier placement. X-ray detectable.

CUSTOM PROCEDURE AND STANDARD PACKS

CUSTOM PROCEDURE PACKS

COST EFFECTIVE AND TIME EFFICIENT: A PACK FOR EVERY PROCEDURE

Our Custom Procedure Pack range covers all areas of the hospital from Cardiac, Orthopaedic, Vascular, ENT and more. They contain all the individual consumables for a surgical procedure, wrapped in a 'field' and sterilised. All products are ready to use when opened, unlike individually wrapped consumables that are touched many times prior to use and require opening separately. Plus there is reduced wastage. Using a Procedure pack saves on setup time for procedures and ensures that all components are readily available for every case. Ordering and inventory control is easier.

CUSTOM TAILOR A PROCEDURE PACK TO MEET YOUR SPECIFIC NEEDS

Select individual consumables such as patient drapes and surgical gowns, to diathermy, suction tubing, abdominal packs, gauze and instruments. Your pack will only include items specifically chosen by you, the surgeon and theatre nurses. Defries assembles these customised packs in cleanrooms according to hospital specifications.

Custom procedure packs can be varied to include cost-effective components as they become available, and allow easy accountability of costs per procedure. As a local Melbourne manufacturer, we are able to respond quickly to any changes requested by a hospital to the configuration of your custom packs.

We'll provide you with ongoing education, listen to feedback and are always available to discuss your specific needs.

READY-FOR-USE STANDARD PROCEDURE PACKS

We have a range of standard procedure packs such as the anaesthetic packs, epidural packs, regional trays, catheter packs, Bronny IV insertion pack, lumbar puncture packs, ICU packs including central line packs, arterial line packs, all designed, made and ready to be ordered.

CODE	DESCRIPTION	BOX QTY.	CODE	DESCRIPTION	BOX QTY.

ANAESTHETIC PACKS

All our anaesthetic packs come sterile, prepacked and ready to use. Indications for use include:

- General and Local Anaesthetic procedures
- Spinal/Epidural/Regional/Lumbar Puncture procedures
- IV Access

NRFIT components are available on request for inclusion into packs.

Select from the packs below or contact us to customise your own anaesthetic pack.

MEDICAL DEVICE SYMBOLS

CUSTOM PACK CHECK SHEETS

Most of our Custom Procedure Packs include a Check Sheet listing the pack's componentry. The Check Sheet may also include the medical device symbols below.

MANUFACTURER - indicates the medical device manufacturer and their address.

DATE OF MANUFACTURE - indicates the date when the medical device was manufactured.

USE-BY DATE - indicates the date which the medical device must be used by.

BATCH CODE - indicates the manufacturer's batch code so that the batch or lot can be identified.

CATALOGUE NUMBER - indicates the manufacturer's catalogue number/ product code so that the medical device can be identified.

STERILISED USING ETHYLENE OXIDE - indicates that a medical device has been sterilised using ethylene oxide.

SINGLE STERILE BARRIER SYSTEM WITH PROTECTIVE PACKAGING INSIDE - the outer packaging is a single sterile barrier. Inside, protective packaging is designed to prevent damage to the contents or to help with aseptic presentation.

MEDICAL DEVICE - indicates the item is a medical device.

DO NOT REUSE - indicates a medical device that is intended for one single use only.

DOES NOT CONTAIN NATURAL RUBBER LATEX - indicates that natural rubber latex as a material of construction within the medical device or the packaging of the medical device is not present.

KEEP AWAY FROM SUNLIGHT - indicates a medical device that needs protection from light sources and/or heat.

KEEP DRY - indicates a medical device that needs to be protected from moisture.

PLASTIC REDUCTION - procedure pack contains an item/s that are an alternative to a plastic product. Examples include a bowl made from sugar cane pulp instead of plastic, a product is wrapped with a paper band instead of double packed in plastic or a paper disposal bag has been included in place of a plastic bag.

SUSTAINABLE SOLUTIONS - procedure pack contains an item/s that is more sustainable than a previously used product. For example, our PurCotton swabs are manufactured using a manufacturing process that transforms raw cotton into a finished product in only 8 hours, unlike traditional gauze which can take up to 6 weeks, therefore minimising the bio-burden on the environment.

HOLLOWWARE

BOWL

A wide selection of bowls that are recyclable and sturdy to use through out the hospital setting. Graduated marking in ml and cc for easy measurement. Sterile and latex free.

INSTRUMENTS AND INSTRUMENT SETS

Our single use sterile instruments will equip you with quality tools for your surgical and medical procedures. The technical design of each instrument is modelled on reusable instruments, whilst providing you the benefit of no repeat sterilisation and a reduced risk of cross infection.

Each instrument has a green dipped handle to visually identify it as single use.
Medical grade stainless steel instruments are made with an exacting mechanical finish.
They can be recycled into meltdown metal or incinerated to become non-toxic file ash.

SURGICAL GOWNS

CODE	DESCRIPTION	BOX QTY.	CODE	DESCRIPTION	BOX QTY.

SURGICAL GOWNS

Our single-use surgical gowns have specifically been developed for the Australian and New Zealand environment. Our range encompasses gowns for short and dry procedures through to high fluid and lengthy procedures.

OUR COMFORT RANGE – OUR SOFTEST AND MOST COMFORTABLE GOWNS

- Comfort Surgical Gown – Level 2.
- Comfort Unreinforced with Glove Assist – Level 3 gown with a reinforced sleeve to allow extra strength during gloving, but still cool, soft and ideal for short and dry procedures.
- Comfort Plus Fabric Reinforced Surgical Gown – Level 3 gown includes fluid resistant fabric reinforced panels yet remains lightweight and durable.
- Comfort Plus Poly Reinforced Surgical Gown – Level 3 gown which includes poly reinforced impervious panels for added protection.
- Comfort Zoned Protection – Fully impervious zoned panel on front and sleeves. Made from high tech BVB (breathable viral barrier) fabric, but still soft, comfortable and cool which meets AAMI Level 4 fabric standards.

OUR CLASSIC RANGE:

- Classic Standard Surgical Gown – suitable for most surgical procedures.
- Classic Plus Reinforced Surgical Gown – Includes a reinforced panel on the front and sleeves, for surgical cases requiring extra protection.
- Coolmax Surgical Gown – breathable and cool, these gowns are notable for their superb comfort and being fully impervious. With AAMI Level 4 fabric.

Designed in close co-operation with hospital staff, our Surgical Gowns are cool and breathable with an easy fit, while offering excellent protection against strike through from microbial and liquid penetration.

WOUND CARE

CODE	DESCRIPTION	BOX QTY.	CODE	DESCRIPTION	BOX QTY.

HAEMOSTATIC BANDAGES

First aid and haemostatic products developed in Japan to simplify haemostasis treatment. These adhesive bandages protect and secure punctured skin after an IV injection or catheter removal. Used for various situations such as covering a punctured site following an injection, to stop the flow of blood from an intravenous line using pressure immobilisation, and to treat bleeding of a peripheral vein.

IV PRESSURE PAD

These IV Pressure pads are suitable to use following the removal of an IV, after giving an intravenous injection or after drawing blood or immunisation injections. Comprises of a 36mm round adhesive with a 16mm haemostatic pad.
The 3mm thick round pad is made of highly absorbent non-woven cellulose and creates a compression effect, resulting in bleeding stopping quickly. After bleeding has stopped, remove the pressure pad slowly and carefully.

DEF929	IV Pressure Pad 36mm White	100

DEF929

STEPTY HAEMOSTATIC BANDAGE

These pressure pads comprise of a rectangular 4 way stretch adhesive with a thick compression haemostatic pad. Designed as a protective covering of peripheral veins after blood sampling, a blood transfusion or an infusion.
Two products available with different pad thicknesses.

STP80-EU	Stepty Pressure Pad 39mm x 80mm, 6mm Thick, White	50

STP80-EU

STPP120-EU	Stepty P Pressure Pad 40mm x 120mm, 9mm Thick, White	30

STPP120-EU

CHUSHAVAN – FIRST AID ADHESIVE BANDAGE

These adhesive bandages are ideal as a protective covering after an injection. They are 27mm x 27mm adhesive size with a pad size of 13mm x 13mm with 1mm thickness.

CSVM-EU	Chushavan Pressure Pad Medium, Packet of 8	Box of 60 packets

CSVM-EU

BANDAGES

Excellent range of sterile bandages that can be used in the operating room.

HOSPITAL WEIGHT CREPE

Made from hospital quality, porous cotton with non-fraying edges. Ideally suited for light compression and holding a dressing in place.

POVIDONE-IODINE DRESSING

MEGHdin® is a non-adherent povidone-iodine dressing designed to provide antimicrobial protection while helping to maintain a moist wound environment. Its low-adherent construction helps minimise trauma during dressing changes, making it suitable for a range of acute and chronic wounds.

MEGHDIN DRESSING

MEGHdin® combines broad-spectrum antimicrobial protection with a low-adherent wound contact layer for the management of acute and chronic wounds.

MANUKA HONEY DRESSINGS

The Advancis Medical Manuka Honey Dressing Range includes a selection of wound care dressings containing medical-grade Manuka honey. Suitable for use across a variety of wound types, the range is designed to support wound management by helping to maintain an appropriate wound healing environment and assisting clinicians in meeting individual patient needs.

ACTIVON TUBE®

Activon Tube® is a medical-grade Manuka honey dressing presented in an easy-to-apply tube format. It is suitable for use on acute and chronic wounds and can be applied directly to the wound bed or used in conjunction with an appropriate secondary dressing.

CR4493-ACTIVON-TUBE

CR4493-ACTIVON-TUBE	20g Manuka Honey	1
CR4493-12-ACTIVON-TUBE	20g Manuka Honey	12

ACTIVON TULLE® DRESSING

Activon Tulle® is a non-adherent viscose mesh dressing impregnated with 100% medical-grade Manuka honey. Designed for direct contact with the wound bed, it helps maintain a moist wound healing environment and can be used in the management of a wide range of acute and chronic wounds. Its flexible structure allows it to conform closely to the wound surface while requiring a secondary dressing.

CR3761-ACTIVON-TULLE

CR3761-ACTIVON-TULLE	5cm x 5cm Honey Coated Tulle	5
CR3658-ACTIVON-TULLE	10cm x 10cm Honey Coated Tulle	5

ALGIVON® ALGINATE DRESSING

Algivon® is a soft alginate dressing containing 100% medical-grade Manuka honey. Designed for use on moderate to heavily exuding wounds, it combines the absorbent properties of alginate with the benefits of Manuka honey to help maintain a moist wound healing environment. Its conformable structure makes it suitable for cavity wounds and areas requiring gentle packing.

CR3831-ALGIVON

CR3831-ALGIVON	5cm x 5cm Alginate with Honey	5
CR3659-ALGIVON	10cm x 10cm Alginate with Honey	5

ALGIVON PLUS® ALGINATE DRESSING

Algivon® Plus is a non-adherent alginate dressing containing 100% medical-grade Manuka honey. Designed for use on wounds with light to moderate exudate, it helps maintain a moist wound healing environment while allowing the dressing to conform closely to the wound bed. The dressing can be cut to size and is suitable for a variety of acute and chronic wounds.

CR4230-ALGIVON-PLUS

CR4230-ALGIVON-PLUS	5cm x 5cm Reinforced Alginate with Honey	5
CR4225-ALGIVON-PLUS	10cm x 10cm Reinforced Alginate with Honey	5

SILICONE DRESSINGS

Advancis Medical's silicone dressing range provide gentle and versatile solutions for wound protection and fixation. Designed to minimise trauma during dressing changes, these silicone-based products support patient comfort while addressing a variety of wound care and skin protection needs.

SILTAPE® SILICONE TAPE

A soft silicone perforated fixation tape bdesigned to secure dressings while minimising skin trauma upon removal. It is particularly suitable for patients with fragile or sensitive skin and can be repositioned during application.

CR3938-SILTAPE	2cmx 3m, Non Sterile	1
CR3938-SILTAPE-12	2cmx 3m, Non Sterile	12

CR3938-SILTAPE

CR3939-SILTAPE	4cm x 1.5m, Non Sterile	1
CR3939-SILTAPE-12	4cm x 1.5m, Non Sterile	12

SILFLEX® SILICONE DRESSING

A soft silicone wound contact dressing designed to protect the wound bed while allowing exudate to pass through to a secondary absorbent dressing. Its gentle adherence helps minimise trauma and pain during dressing changes.

CR3922-SILFLEX

CR3922-SILFLEX	5cm x 7cm Silicone Wound Contact Layer	10
CR3923-SILFLEX	8cm x 10cm Silicone Wound Contact Layer	10
CR3924-SILFLEX	12cm x 15cm Silicone Wound Contact Layer	10
CR3925-SILFLEX	20cm x 30cm Silicone Wound Contact Layer	10
CR4006-SILFLEX	35cm x 60cm Silicone Wound Contact Layer Sterile	5

VELLAFILM® FILM DRESSING

Vellafilm® is a transparent, atraumatic, polyurethane film dressing with Silfix® soft silicone adherence, designed to protect fragile skin and superficial wounds. Its waterproof, breathable construction allows monitoring of the wound site without removing the dressing.

CR3919-VELLAFILM

CR3919-VELLAFILM	12cm x 12cm Adherent Silicone Film Dressing	10
CR3921-VELLAFILM	15cm x 20cm Adherent Silicone Film Dressing	10
CR3917-VELLAFILM	12cm x 35cm Adherent Silicone Film Dressing	10

FOAM DRESSINGS

Advancis Medical's foam dressing range offers absorbent solutions for the management of a wide variety of acute and chronic wounds. Designed to manage exudate and maintain a moist wound healing environment, the range provides options to meet different anatomical and clinical needs.

ADVAZORB SACRAL ® FOAM DRESSING

Advazorb Sacral® is a hydrophilic foam dressing designed to contour to the sacral area, for wounds with low to medium levels of exudate. With a soft silicone wound contact layer for gentle adherence, Advazorb Sacral® will only adhere to dry skin surrounding the wound and can be easily lifted for adjustment without losing its adherent properties.

CR4401-ADVAZORB-SACRAL

CR4401-ADVAZORB-SACRAL	17cm x 19cm Hydrophilic Foam Sacral Dressing with Adhesive and Border	10
CR4402-ADVAZORB-SACRAL	22cm x 23cm Hydrophilic Foam Sacral Dressing with Adhesive and Border	10

ADVAZORB® FOAM DRESSING

A polyurethane foam dressing with a breathable film backing designed for the management of moderate to heavily exuding wounds. It provides absorbency while helping to maintain a moist wound healing environment.

CR4165-ADVAZORB

CODE	DESCRIPTION	BOX QTY.
CR4165-ADVAZORB	7.5cm x 7.5cm Hydrophilic Foam Dressing with Film Backing	10
CR4166-ADVAZORB	10cm x 10cm Hydrophilic Foam Dressing with Film Backing	10
CR4167-ADVAZORB	12.5cm x 12.5cm Hydrophilic Foam Dressing with Film Backing	10
CR4168-ADVAZORB	15cm x 15cm Hydrophilic Foam Dressing with Film Backing	10
CR4169-ADVAZORB	10cm x 20cm Hydrophilic Foam Dressing with Film Backing	10
CR4170-ADVAZORB	20cm x 20cm Hydrophilic Foam Dressing with Film Backing	10

ADVAZORB HEEL ® FOAM DRESSING

Advazorb Heel® is a shaped foam dressing designed specifically for the heel. Suitable for wounds with low to moderate exudate, it combines absorbent foam with an anatomical design to provide a secure fit, helping to manage exudate and maintain a moist wound healing environment.

CR4228-ADVAZORB-HEEL

CODE	DESCRIPTION	BOX QTY.
CR4228-ADVAZORB-HEEL	17cm x 21cm Hydrophilic Foam Dressing with Film Backing	5

ADVAZORB SILFIX® DRESSING

Advazorb® Silfix is a soft silicone foam dressing that combines the absorbency with a gentle, atraumatic silicone adhesive layer. Designed for wounds with low to moderate levels of exudate, it helps maintain a moist wound healing environment while minimising trauma during dressing changes, making it suitable for patients with fragile or sensitive skin.

CR4177-ADVAZORB-SILFIX

CODE	DESCRIPTION	BOX QTY.
CR4177-ADVAZORB-SILFIX	7.5cm x 7.5cm Hydrophilic Foam Dressing with Silicone Adhesive	10
CR4178-ADVAZORB-SILFIX	10cm x 10cm Hydrophilic Foam Dressing with Silicone Adhesive	10
CR4179-ADVAZORB-SILFIX	12.5cm x 12.5cm Hydrophilic Foam Dressing with Silicone Adhesive	10
CR4180-ADVAZORB-SILFIX	15cm x 15cm Hydrophilic Foam Dressing with Silicone Adhesive	10
CR4181-ADVAZORB-SILFIX	10cm x 20cm Hydrophilic Foam Dressing with Silicone Adhesive	10
CR4182-ADVAZORB-SILFIX	20cm x 20cm Hydrophilic Foam Dressing with Silicone Adhesive	10

ADVAZORB BORDER® DRESSING

Advazorb Border® is a self-adhesive foam dressing with a soft silicone wound contact layer, designed for wounds with low to moderate exudate. The absorbent foam and perforated silicone layer allow exudate to pass into the dressing while protecting the wound bed, helping to maintain a moist wound environment and minimise trauma during dressing changes.

CR4190-ADVAZORB-BORDER

CODE	DESCRIPTION	BOX QTY.
CR4190-ADVAZORB-BORDER	7.5cm x 7.5cm Hydrophilic Foam Dressing with Silicone Adhesive and Border	10

CR4192-ADVAZORB-BORDER	12.5cm x 12.5cm Hydrophilic Foam Dressing with Silicone Adhesive and Border	10
CR4193-ADVAZORB-BORDER	15cm x 15cm Hydrophilic Foam Dressing with Silicone Adhesive and Border	10
CR4194-ADVAZORB-BORDER	10cm x 20cm Hydrophilic Foam Dressing with Silicone Adhesive and Border	10
CR4195-ADVAZORB-BORDER	20cm x 20cm Hydrophilic Foam Dressing with Silicone Adhesive and Border	10
CR4196-ADVAZORB-BORDER	10cm x 30cm Hydrophilic Foam ressing with Silicone Adhesive and Border	10

SUPER ABSORBENT DRESSINGS

The Advancis Medical Eclypse® range offers highly absorbent dressings for the management of moderate to heavily exuding wounds. Designed to provide fluid handling and retention, the range helps protect peri-wound skin and maintain an optimal wound healing environment.

ECLYPSE® DRESSING

Eclypse® is a super absorbent secondary dressing designed for the management of moderate to heavily exuding wounds. Its high-capacity absorbent core rapidly wicks, absorbs and locks away exudate, helping to reduce the risk of leakage and maceration while supporting an optimal wound healing environment. A water-resistant backing helps prevent strike-through and prolong wear time.

CR3818-ECLYPSE

CODE	DESCRIPTION	BOX QTY.
CR3818-ECLYPSE	10cm x 10cm Super Absorbent Dressing	20
CR3769-ECLYPSE	15cm x 15cm Super Absorbent Dressing	20
CR3743-ECLYPSE	20cm x 30cm Super Absorbent Dressing	20
CR3808-ECLYPSE	60cm x 40cm Super Absorbent Dressing	10

ECLYPSE BOOT® DRESSING

Eclypse Boot® is a super absorbent secondary dressing specifically designed for use on the foot and ankle. Its anatomically shaped design provides coverage while the high-capacity absorbent core rapidly wicks, absorbs and locks away exudate, helping to reduce the risk of leakage and maceration. A water-resistant backing helps prevent strike-through and prolong wear time.

CR4237-ECLYPSE-BOOT

CODE	DESCRIPTION	BOX QTY.
